MANAGEMENT DISCUSSION AND ANALYSIS**

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Financial Year 2018-19 was a mixed year for the Global Economy.

World production of Aluminium during the year 2018 was 63.71 Million Tonnes, registering a meagre increase of 0.3% over production figures of 63.49 Million Tonnes achieved in 2017. At the same time, worldwide consumption of Aluminium increased 3.1% from 63.41 Million Tonnes in 2017 to 65.39 Million Tonnes in 2018. The market, thus, stayed in deficit of around 1.7 million tonnes during 2018.

China was the largest producer as well as consumer during the year, contributing 57% share of the world production (36.15 Million Tonnes) and 55% of the world consumption (35.71 Million Tonnes) of Aluminium. China registered a negative aluminium production growth of 0.3% during 2018, while the rest of the world exhibited 1.2% growth in production. As far as Aluminium consumption is concerned, China registered 3.9% growth during 2018, while the rest of the world registered 2.2% growth. During FY 2018-19, consumption of Aluminium in India grew by 9.7%.

The average LME Cash Settlement Price during the Financial year 2018-19 was USD 2,036/- per MT, dropping 0.5% against the corresponding figure of USD 2,045/- per MT during 2017-18. The price rose during the first half of the year, but has kept low since October, 2018.

Estimated global Aluminium stocks at the end of Financial Year 2018-19 stood at 11.69 Million Tonnes, registering a decline of 11.54% against stocks of 13.22 Million Tonnes at the end of Financial Year 2017-18.

OPPORTUNITIES AND THREATS:

The principal user segment in India for aluminium continues to be electrical and electronics sector followed by the automotive and transportation, building, construction, packaging, consumer durables, industrial and other applications including defence. Demand of aluminium in India is expected to grow at 7-8 per cent per annum and this will be driven by growth in sectors like electricity, transport, building, construction and packaging.

The Government of India is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport, during the coming years. During Union Budget 2019-20, Government of India has allocated 4.56 lakh crore (USD 63.20 billion) for the sector, which includes development of post and telecommunications departments, Railways, road transport and highway, Green Energy Corridor Project, wind and solar power projects, telecom infrastructure, water supply and healthcare. All these massive investments are likely to boost Aluminium demand in the near future.

Domestic primary aluminium manufacturers also face competition from scrap imports by secondary aluminium producers, which keep increasing every year and eat into the primary producers' domestic market share. In fact, quantity of Aluminium scrap imports in India has increased from 8.7 Lakh MT in 2015-16 to 13.5 Lakh MT in 2018-19, i.e., by around 56% in the last three years. Secondary market also

face Competition among other manufactures.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE:

The company is working in single segment further no Operating income was reported during the year by the company.

OUTLOOK:

The Domestic Demand for aluminium in India is expected to benefit from the Infrastructure projects prioritized by the government. The government's thrust on the power which sector is the dominant consumer of aluminium in India, augurs well for the aluminium industry. The Automobile and food packaging industries are also expected to stoke aluminium growth. Furthermore, rapid urbanization should augment consumer demand, yet another positive for the sector. Moreover the per capita aluminium consumption is far below the global average. This offers a huge potential, given our demographic and economic outlook.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Palco Metals Limited ("the Company") as of 31st March, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India('ICAI').

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide

reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that

transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

O. Segment reporting

As the company's business activity, in the opinion of the management, falls within a single primary segment subject to the same risks and returns, the disclosure requirements of IND Accounting Standard (AS) – 108 "Segment Reporting" notified under the Companies (Accounting Standards) Rules, 2006 are not applicable.

P. Earnings per Share

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in Dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, Bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that has changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating

diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates

where the company expects some or all of a provision to be reimbursed, for example under an Insurance contract, the reimbursement is recognized as a separate asset but only when the Reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.
